

Participant Feedback of LA 27001:2013
Course conducted from 17th to 21st June 2017

- Ketan has excellent knowledge about the course ISO 27001. It would be very useful if the course material is given in advance. We can be better prepared for the course. Great experience. Looking forward for future trainings.
- Very good training provided and queries are addressed. Material is good but required good time to read. Interested in doing ISO 20000 training.
- Tutor explained the course material in depth.
- Lead Tutor was very well skilled, knowledgeable and capable enough to conduct this course. Booking course done in very processed and easy manner. Supplied material provided was sufficient enough. The overall course was much more than satisfactory.
- It was a fruitful experience. I could clear concepts of subject before having any work experience. This will help me to grasp working experience effectively.
- Lead Tutor performance and knowledge very good.
- Good Training. Course Material should supply if possible before course duration starts.
- The concepts were clarified with examples in depth. Very good training. Course material to be provided before the course.
- Excellent skills Tutor is having. Would like to thank Mr. Ketan Shah for his knowledge transfer. Course content provided was very good. Language is very nice. Overall excellent.
